Aussie Locker XD-14480 Dana 44 JK Next Generation Installation Supplement

Thank you for your purchase of the XD-14480 Dana 44 Aussie Locker for 2007 to 2014 JK and Wrangler Jeeps open carrier differentials with manual transmissions and 2007 to 2011 with automatic transmissions. If you have a 2012 or newer JK with an automatic transmission do not proceed with the installation.

On the Aussie Locker axle gears you will see grey custom thrust washers. These washers are specifically designed and manufactured for the XD14480 installation.

In this installation you will NOT be using the factory (OE) thrust washers. Simply replace those thrust washers with the grey thrust washers provided with your Aussie locker and then follow the Installation Manual for the rest of the installation process.

Aussie lockers are 100% made in the USA.
